OUR GUARANTEE

This product is guaranteed to be free from defects and workmanship for one year from the date of purchase. Defective products will be replaced free of charge. This does not apply to products that have been subject to misuse, neglect or excessive wear and tear. Seller makes no other expressed or implied guarantees, and specifically makes no implied guarantees of merchantability or fitness for purpose unless agreed in writing by an authorized representative or seller.

RELIABILITY, DEPENDABILITY and STRENGTH are the design features of Sluggo-Ox. This tool is a must. This tool is coated with Yellow Zinc Chromate to deter rust. ELECTRICIANS, CONTRACTORS and DISTRIBUTORS swear by it and should have this State-Of-The-Art tool in their inventory.

TESTIMONIALS

We put the Sluggo-Ox into our stock to have something other than a drill adaptor ground rod driver. We sold 1 the first day we had them and our customer was so happy with how it worked he bought 3 more for his guys. We have sold 9 in a month with no complaints. Great Product !

- Gregory Hale, Ligon Electric Supply Co. Inc.,
Winston-Salem, N.C

"Our Sluggo-Ox ground rod driver has proven itself a very effective and time saving addition to our tool kit. In Vermont we have a wide variety of soil conditions and it is often a real challenge to keep the rods from becoming "Mushroomed". The Sluggo-Ox consistently allows us a clean and professional installation."

- Earth Turbines, Vermont

"Sluggo-Ox is the easiest product to use. Before I started using it, it was a chore to put in ground rods. Now I save 10-15 minutes to drive in a rod. I keep beating on it and it keeps driving it in."

- Thanks, E. Brians Electrical, Quaker Hill, CT
